### Protect

Safeguard your business networks, staff, and customers with 24/7 malware, virus, and threat defense.

### Connect

Use dedicated business, point-of-sale, staff, and customer networks to maintain compliance and keep critical data protected.

### Filter

Provide Wi-Fi connectivity to business and staff and boost productivity by restricting access to harmful or inappropriate internet content right from the AgilisWorx app.

### Always On

Keep your essential business networks running 24/7 by automatically switching to a cellular connection during outages.

# SMALL BUSINESS SOLUTIONS. BIG OPPORTUNITIES.

There's nothing small about your small business. Take advantage of big opportunities by adding a managed network service that can help protect your network from attacks, increase staff productivity, and secure critical business systems.

Seamless integration  
of local LAN  
and Wi-Fi

Automatically switches  
to cellular connection  
during outages

Branded Customer  
Wi-Fi Portal

Security for your  
most important  
networks
