Protect

Keep your business and point-of-sale devices running 24/7 by automatically switching to a cellular connection during outages.

Connect

Protect your business networks, devices, and data with 24/7 malware, virus, and threat defense.

Filter

Provide Wi-Fi connectivity to business and staff and boost productivity by restricting access to harmful or inappropriate internet content right from the AgilisWorx app.

Direct

Drive in store interaction and promotions with a customer Wi-Fi portal that features your brand.

SMALL BUSINESS SOLUTIONS. BIG OPPORTUNITIES.

Take advantage of big opportunities by adding a managed network service that can help drive customer loyalty, increase staff productivity, and secure critical business systems.

Seamless integration
of local LAN
and Wi-Fi

Automatically switches
to cellular connection
during outages

Branded Customer
Wi-Fi Portal

Security for your
most important
networks

Business Grade Cyber Security

SmartBiz™ protects your business, point-of-sale, staff and customers with proactive network monitoring and built-in cybersecurity.

Simple Network Management

Attract customers with safe Wi-Fi featuring your brand and colors, maintain compliance with business-built networks, and maximize staff productivity with internet content restrictions. Manage it all in the CommandWorx™ app.

Get Started Today

With SmartBiz by Agilis Networks, your small business can enjoy big business capabilities with a fully integrated, cost-effective solution that features enhanced security, content blocking, business-built networks, and cellular backup.
