Getting started

On the Home screen, the left and right navigation keys can be used to switch between the home screen. the line manager, and active calls.void your warranty.

removed from the headset port. See the Mitel 6930 SIP Phone Installation Guide for more details. Warning!

The headset port is for headset use only. Plugging any other devices into this port may cause damage to the phone and will

Information Regarding Model Variants

The 6930L and 6930Lt variant has the Bluetooth circuitry removed and so all associated features and capability relating to Bluetooth are not available. Any information within this user guide that relates to Bluetooth wireless capabilities do not apply to the 6930L or 6930Lt variants.

A new variant of the 6930 IP Phone is available called the 6930w IP Phone. The 6930w IP Phone is physically identical to the 6930 IP Phone. There are new features supported by the 6930w IP Phone relative to the 6930 IP Phone, namely embedded Wi-Fi, Bluetooth 5.2, IEEE 802.3az standard (Energy Efficient Ethernet) capability. The 6930w IP Phone also supports the same accessories as the current 6930 IP Phone.

Basic call handling

Making a call

1. Lift the handset, press the Line key or press

the $[\bigcirc / \bigcirc]$ key, and at the dial tone, enter the number.

2. Press the Line / Call appearance button and at the dial tone, enter the number.

Ending a call

Place the handset back in its cradle, press the **Ignore** softkey, or press the \sim kev.

Answering a call

Lift the handset, press the **Answer** softkey or press the S operation.

Redialing

Press the Redial softkey once or the key twice to call the last dialed number S

or

Press the 🛛 🕲 🔹 key once to access the Call History application that displays a list of recently dialed numbers. Use the up and down navigation keys to scroll through the entries and select a number. Press either the Select button or the Dial softkey to redial the selected number.

Muting or unmuting a call

Press the key while on an active call to mute the microphone for your handset, headset, or speaker. Press the key again to unmute the audio.

Holding and resuming a call

- 1. To place an active call on hold, press the use key. A ((hold) icon flashes on the respective Line key.
- 2. To resume the call, press the *w* key again or press the respective **Line** key.

Note: For details on all the available features and options, refer to the *Mitel* 6930 SIP Phone User *Guide*.

User Interface (UI) overview

Home screen

The Home (default) screen is displayed when the phone is in the idle state. The Home screen displays the current line, status indicators, status messages, the date and time, and a list of configurable top and bottom softkeys.

Call screen

When on an active call, caller's avatar, name, number, and the call-duration timer are displayed. The context-sensitive softkeys are updated with applicable call-handling features.

Applications

Directory

The Directory application stores personal phone book and directory. The Mitel 6930 SIP phone supports a localized personal directory as well as enhanced functionality allowing for interoperability with LDAP (corporate) directories.

Mitel's Power Over Ethernet (PoE) Powered Device (PD) products are covered by one or more of the U.S. patents (and any foreign patent counterparts thereto) identified at Mitel's website: www.mitel.com/patents. For more information on the PD patents that are licensed, please refer to www.cmspatents.com.

58017014 REV00

Making a call using the Directory

1. Press the key to access the **Directory**.

2. Navigate to the respective contacts folder and scroll through the contacts by using the navigation keys

or

Enter characters using the keypad and press the **Search** softkey to use the search feature.

3. When the applicable contact is highlighted, press the **Select** button or the **Dial** softkey to place a call using the entry's default phone number

or

To place a call to a different phone number defined for the entry (for example, a mobile number), press the right navigation key, highlight the phone number you want to call using the up or down navigation keys, and press the **Select** button or the **Dial** softkey.

Call History

The Call History application displays a list of your missed, outgoing and received calls. You can view, delete and dial out to call history entries as well as copy entries to your Contacts application.

Using the Call History application

1. Press the 🛛 🖉 key to access the Call History application.

- 2. Scroll through the lists by using the navigation keys. To view additional details for an entry, press the **Right** navigation key when the entry is highlighted.
- 3. Press the **Select** button or **the Dial** softkey to place a call to the respective entry or

Press the **Copy** softkey to copy the entry to your Contacts application or

Press the **Delete** softkey to delete the entry from your Call History.

Voicemail

When voicemail functionality is enabled, the MWI LED on the Mitel 6930 SIP phone flashes red and the **OOO** (Voicemail) icon displays on the status bar indicating that voicemail messages are available.

You can access your voicemail service by pressing the Voicemail key.

Note: Voicemail functionality must be configured by your System Administrator.

Mobilelink

The Mitel 6930 SIP Phone supports Mobilelink, a feature that provides seamless mobile integration using Bluetooth wireless technology. Mobilelink highlights include the ability to:

- Sync your mobile phone's contact list with your 6930 SIP Phone.
- Answer a mobile phone call using your 6930 SIP Phone.
- Move active calls between the 6930 SIP Phone and your mobile phone.

Note: Mobilelink features are available only if your Administrator has enabled them. Contact your Administrator for details on how to enable mobilelink on your phone.

Pairing a mobile phone using Bluetooth

- 1. Press the wey, navigate to **Bluetooth** setting, and press the **Select** button or **Select** softkey.
- Press the **Turn On** softkey to enable Bluetooth functionality. Ensure your mobile phone is discoverable as the Mitel 6930 SIP Phone automatically scans for available Bluetooth devices.

58017014 REV00

The trademarks, service marks, logos and graphics (collectively "Trademarks") appearing on Milel's Internet sites or in its publications are registered and unregistered trademarks of Mitel Networks Corporation (MNC) or its subsidiaries (collectively "Mitel") or others. Use of the Trademarks is prohibited without the express consent from Mitel. Please contact our legal department at legal@mitel.com for additional information. For a list of the worldwide Mitel Networks Corporation registered trademarks, please refer to the website: http://www.mitel.com/trademarks.

Note: For information on how to make your mobile phone Bluetooth discoverable, refer to the documentation provided with your respective mobile phone.

3. When your mobile phone has been discovered, use the navigation keys to highlight the respective entry in the list of available devices and press the Select button or Pair softkey.

A Bluetooth pairing request displays on both the Mitel 6930 SIP Phone and your mobile device.

4. Ensure the pairing code matches on both devices and press Yes on the Mitel 6930 SIP Phone and acknowledge the pairing request on your mobile phone. The Mitel 6930 SIP Phone attempts to pair the mobile phone and if successful, automatically attempts to connect to the mobile phone.

Note: If pairing or connecting fails, a failed error message displays on screen. Press Retry to attempt to pair or connect again, or **Cancel** to cancel the attempt.

5. Press **OK** to acknowledge the successful connection. The connected mobile phone is added to the list of **Paired Devices** and is ready to use.

Syncing mobile contacts

The Mitel 6930 SIP Phone automatically attempts to sync your mobile contacts to the Directory application upon pairing and connection.

To manually update your mobile contacts:

1. Press the A key to access the Directory application.

2. Navigate to the **Mobile** contacts folder.

3. Press the **Reload** softkey.

The Mitel 6930 SIP Phone attempts to re-synchronize and update your mobile contacts.

Note: If the update fails, a failed to retrieve contacts message displays on screen. Press Retry to attempt to update again, or **Cancel** to cancel the attempt.

Answering an incoming mobile call using your Mitel 6930 SIP Phone

When your mobile phone is paired and connected to your Mitel 6930 SIP Phone, incoming calls on your mobile phone will be indicated on your 6930 SIP Phone as well.

Note: A Mobile softkey must be configured to answer an incoming mobile call using your Mitel 6930 SIP phone. For more information, refer to the Mitel 6930 SIP Phone User Guide.

Lift the handset or press the wey, blinking **Bluetooth Line** key, or **Answer** softkey for handsfree operation.

Moving the audio of an active mobile call between your mobile phone and Mitel 6930 SIP Phone

Press the Push call softkey to push the mobile call's audio from your Mitel 6930 SIP Phone to your mobile phone

or

Press the **Solution** Mobile softkey to pull the mobile call's audio from your mobile phone to the Mitel 6930 SIP Phone.

You can push and pull mobile call audio from the Mitel IP Phone only.

Note: For other functions, such as viewing mobile call history details, dialing a mobile call history entry, adding a mobile call history entry to Contacts, and deleting mobile call history, refer to the *Mitel* 6930 *SIP Phone User Guide*.

PCLink

The Mitel 6930 IP Phone supports PCLink, a feature that enables the IP Phone to be used as the audio device for PC or MAC video collaboration with all the supported video collaboration applications, for both Windows 10 and MAC operating systems, through the IP Phone's Bluetooth interface. For more information, see:

•PCLink for 6920w, 6930 and 6940 Mitel IP Phone Quick Reference Guide - MAC

•PCLink for 6920w, 6930 and 6940 Mitel IP Phone Quick Reference Guide -Windows

Advanced call handling

The Mitel 6930 SIP Phone provides a method for transferring calls through the **Transfer** softkey.

Call Transferring

- 1. Ensure you are on active call with the party you wish to transfer.
- 2. Press the Xfer softkey. The active call is placed on hold.
- 3. Enter the transfer recipient's number and press the Xfer softkey.

3-Way Conference Call

- 1. Ensure you are on active call with one of the contacts with whom you want to create a conference.
- 2. Press the **Conf** softkey. The active call is placed on hold.
- 3. Enter the conference target's number and press the Dial softkey.
- 4. Wait for an answer and then press the **Conf** softkey to complete the 3-way conference call.

Speed Dial configuration

A **Speed Dial** key allows you to dial a specified number with one key press. **Speed Dial** keys can be useful as they can be programmed to dial directly to an internal or external number.

You can also transfer calls to or create conference calls using your **Speed Dial** keys in place of dialing out manually.

Note: Configuring a speed dial key using the press-and-hold method is only available if enabled by your System Administrator.

Configuring a Speed Dial key

- 1. Press and hold the non-configured softkey, dialpad key, or expansion module key (for approximately 3 seconds) until the **Speed Dial Edit** screen is displayed.
- 2. In the Label field, enter a description to apply to the key.
- Note: Use the ABC softkey to specify uppercase letters or lowercase letters when entering the label.
- Press the down navigation key to move to the Number field and enter the number using the dialpad keys.
- 4. Press the Save softkey to save the speed dial information to the key you selected.
